SMART SAVINGS ON SMART UPS

Save 15% on select Smart App
Online UPS Systems

SAVE UP TO
15%

This August and September, enjoy select savings on CyberPower Smart App Online UPS Systems with pre-installed network management cards. Monitor, manage, and control power protection for mission critical IT infrastructure from anywhere.

POWERING MISSION-CRITICAL APPLICATIONS

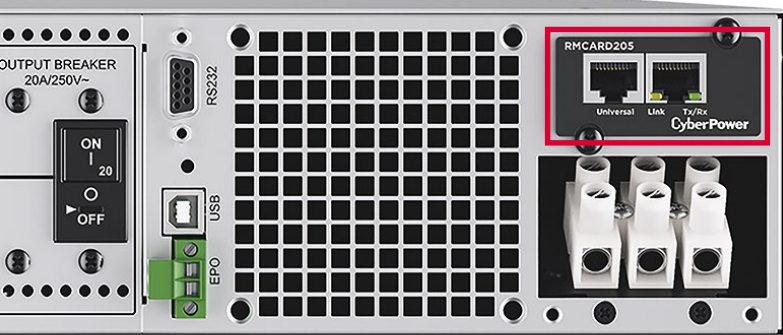

CyberPower Smart App Online UPS models, with double-conversion topology provide sine wave output power to mission-critical applications and equipment requiring seamless power correction. These units offer generator compatibility and deliver clean AC power with zero transfer time.

These models feature a factory-installed RM card, which allows remote management and configuration of the UPS system via a standard web browser, command line interface (CLI), or network management system (NMS).

KEEP IT BUSINESS AS USUAL

Save 15% on select Smart App Online UPS

Our Smart App Online UPS System models are ideal for networking closets, datacenters, core network equipment, hyperconverged infrastructure (HCI), server rooms, server virtualization infrastructures, storage systems, and VoIP infrastructure.

PowerPanel Cloud

Monitor power anywhere, anytime. View UPS status, network conditions, and potential problems.

Remote Management

The pre-installed RMCARD205 allows users to manage and monitor UPS Systems via a standard web browser, command line interface (CLI), or network management system (NMS) connection.
