REBATE**

M2-156P 15.6" Android POS System

The Mach POS is a totally new design from MicroTouch featuring super thin and stylish 15.6" Touch screen mounted to a purpose-built base with integrated I/O ports. The design features an optional matching customer display that can attach to the base or sit on counter, creating a sleek and flexible POS countertop system.

And... Mach POS adds payment... both the main display and customer display can be configured with an NFC reader that is embedded BEHIND the LCD to allow for tap to pay on the screen. This NFC capability is enabled by a simple integration with any of the SoftPOS payment solutions in the marketplace.
